    Map data after object module synopsis:37   00:00:11.59     00:00:14.39
    Symbol table output:                   1   00:00:00.43     00:00:02.88
Total run values:                       1493   00:00:30.31     00:01:04.94

Using a working set limited to 3300 pages and 1129 pages of data storage (excluding image)

Total number object records read (both passes):   6773
    of which 3388 were in libraries and 406 were DEBUG data records containing 45700 bytes

Number of modules extracted explicitly              = 147
    with 6 extracted to resolve undefined symbols

102 library searches were for symbols not in the library searched

A total of 114 global symbol table records was written
